Water Conservation Policy

Oriental College of Education highlights the three inter-related dimensions of Efficient Conservation, Responsible Consumption and Restoring and Retaining surface and groundwater. The primary goal of the water conservation policy is to provide safe and clean water on the whole campus. Reducing water consumption and protecting water quality shall be the key objectives of the sustainable policy of the institute.

Objectives:

To maximize water use efficiency and minimize wastage of water.

To increase the recharge of groundwater by rainwater harvesting from rooftops and run-offs.

To ensure awareness about the water conservation policy of the college among all the staff and students through posters.

To create awareness about the cost-effectiveness of water conservation projects among students and local communities.

To organize various outreach programmes under the leadership of DLL for clean and safe potable water.

To promote students to monitor and collect information related to water bodies and their pollution of nearby areas.

Action Plan:

Oriental College of Education will implement water- saving technologies and practices.

Water conservation tank will be installed and cleaning of the tank and its maintenance would be done periodically.

Awareness campaigns will educate the campus community about responsible water usage.

Enhance the efficiency of plumbing fixtures, thereby minimising potable water use.

Reusing RO drain water for vessel washing as well gardening.
