### MENTOR-MENTEE ACTIVITIES

**Supportive Learning Interaction:** The college timetable allocated specific lectures for providing remedial support for various theory courses, conducted before examinations. The remedial program provides targeted assistance in subjects where students may need additional help, offering personalized tutoring and supplemental resources. Through a combination of one-on-one sessions and interactive learning tools, students receive focused instruction tailored to their specific needs. By fostering a collaborative learning environment and addressing individual academic gaps, the initiative aims to enhance student performance and boost overall confidence and success.

27	28 CC1, CC2 and IC1 Remedial Lectures	29 CC1, CC2 and IC1 Remedial Lectures	30 CC1, CC2 and IC1 Remedial Lectures			

**Tutorials** - The main goals of a teacher's effective tutorial for pupils should be involvement and clarity. Teachers started by outlining the material's relevance and establishing specific learning objectives, accommodating various learning styles, employing a variety of instructional strategies, including visual aids, practical exercises, and real-world examples. Teachers summarize the main ideas once more, making sure that students have a chance to raise any questions or concerns. This method improves student retention and comprehension while fostering a positive learning atmosphere.

**Vocational Guidance-** The college hosted vocational guidance session aimed at assisting students with their personal growth and future planning. Professional career counsellors led the seminar, which offered insightful information about numerous career pathways, employment trends, and successful job search techniques. Students took part in interactive talks about networking strategies, interview preparation, and resume writing. The counsellors assisted students in coordinating their academic objectives with their professional aspirations by providing tailored advice based on each student's unique interests and strengths. The program also featured workshops on creating professional goals and looking into internships. The event's overall goal was to provide students with the skills and information they would need to successfully plan and grow their careers.
